19 SEP 1952

The Superintendent of Census Operations,
Madras and Coorg. MADRAS.

Sir,

Sub: Electoral Rolls- Madras Legislative Assembly-
And House of the people-Annual Revision-1952-
Bellary Taluk-Tungabhadra Project-canal Area-
Enumeration of persons in camps-Instructions-
Requested.

I enclose a copy of the letter dated 15/9/1952 received from the Special Dy. Tahsildar (W and A) Tungabhadra Project, Bellary. I enclose also a copy of his letter dated 4/9/52 and my reply thereto dated 11/9/52, to which reference is made in the first sentence of the letter of the Special Dy. Tahsildar, d/15/9/52.

2) Paragraph 1 of the Special Dy. Tahsildar's letter:-

The Special Dy. Tahsildar relies on the orders contained in paragraph 2-(2) of G.O. No. Ms. 2625 Public (Election) Department dated 14/6/50, to suggest that the persons in labour camp in the canal area of the Tungabhadra project may be treated as homeless persons and need not be included in the Electoral Rolls. I request the ~~favor~~ of clear instructions in the matter.

3) Paragraph 2 of the Spl. Dy. Tahsildar's letter:-

The suggestion of the Spl. Dy. Tahsildar that in cases of the sort referred to ~~him~~, viz., when the entire camp is not ~~known~~ in existence, a mere report to that effect will suffice, ~~appears~~ to be reasonable and may be approved.

4) Paragraph 3 of the Spl. Dy. Tahsildar's letter:-

The Spl. Dy. Tahsildar has suggested that migration slips need not be insisted upon in respect of persons in labour camps in the canal area which are ~~not~~ now in existence (but which were in existence last year) and whose present places of residence is not known. This suggestion also appears to be reasonable and saves a lot of stationery and scriptoray work. I submit that this suggestion may also be approved.

5) Paragraph (4) of the Spl. Dy. Tahsildar's letter.

If, according to the orders contained in paragraph 2(2) of G.O. No. Ms. 2526 2526, Public (Election) Department dated 14/6/50 it is decided that the temporary buildings in the labour camps need not be numbered the Spl. Dy. Tahsildar will have to be asked to assign one contiguous services of household numbers for all the houses in a camp according to the house numbering ~~and~~ ^{procedure} proceed to determine the sample household selected. If however it is now

ordered that all the temporary buildings also should be numbered treating the labour camp as a new block in the locality, all the houses would naturally ^{be} numbered serially and there would be no difficulty in determining the sample household selected for experimental census of birth and deaths;

6) Paragraph (5) of the S.D.T's. letter:-

As the purpose of the experimental ~~census~~ census of birth and deaths is to verify the correctness of the population records, the Spl. Dy. Tahsildar may be informed, I presume, that births, and deaths, in labour camps should be not included in Register of Births and Deaths respectively of the village, within the limits of which the labour camp is situated.

Sub:- Elections-Revision of Electoral Rolls-Instructions Requested

I request you to kindly enlighten me on the following points:-

i) Whether huts in labour camps in the T.B. P. Canal area which have newly come into existence have to be numbered as per instructions contained in General instructions to Enumerators. (page .2.) and

ii) New camps have spring up in the T.B.P. Canal area and they have been in existence since March 1951. The inmates of these huts have thus obtained residential qualification and are qualified to be voters. Is it necessary that these people should be enumerated and accounted for in the National Register of Citizens and then entered in Cols. 1 to 7 in the list of Additions, Deletions and corrections to the Electoral Rolls, (only such persons who are aged 21 years and above). It is presumed that the labourers residing in labour camps are not eligible for voting as they are to be treated as homeless persons and consequently there appears to be no need to make any additions of these names to the Electoral Rolls.

As there are cases of the type mentioned above, I request definite and immediate instructions in the matter to enable me to issue necessary instruction to my enumerators.

Sub:- Electoral - Rolls - Revision 1952-1953 - T.B. Project labour
camps - Numbering of huts etc. - Instructions solicited.

Ref:- Your R.C. No. 4107/52. Election. dated 11/9/52. P 5

* Copy enclosed

I invite your attention to your letter cited above, in which you have directed that huts in T.B. Project labour camps have to be numbered and brought to the N.R. of citizens and persons having residential qualifications and also have also to be brought to the Electoral Roll. In this connection I invite your attention to G.O. No. 2625, Public (Elections) dated 14/6/50. This order solely relates the numbering of buildings and supplementary enumeration in the labour camps, in the T.B. Project area. It clearly lays down that where no numbers have been assigned in a temporary labour camp to the temporary buildings or huts therein, it is not necessary to insist on their being numbered. The persons living in these temporary buildings or huts should be treated as houseless persons even for purposes of inclusion of their names in the Electoral rolls and the enumeration therefor. It is thus quite clear from this order of the Govt. that huts in camps which have come into existence since last enumerations need not be numbered now and the inmates enumerated and brought to Appendix V (List of Additions, deletions and corrections to the Electoral Roll) It is therefore presumed that these labourers residing in camps are not eligible for voting as they are to be treated as homeless persons and there is no necessity to make any additions of these names to the Electoral Rolls. I solicit definite instructions in the matter in the light of the orders in the above said G.O.

2) On 13/9/52 and 14/9/52 I visited the labour camps of Somalapuram, Berekur and Gravai along with the enumerators. I found that the labour camps in these places, which find place in the N.R. of citizens are not in existence now and all the persons have moved out to some other places, the details of which are not known to any body in the locality. In these circumstances, the sample house-holds selected cannot be verified. I think that a report to the effect that all the people in the previous camps have moved out will be enough instead of submitting 'NIL' house hold verification slips for all the house holds selected for the purpose and this waste time.

3) According to the instructions in the booklet general instructions to enumerators Part I, in the case of persons who have changed their places of residence, the latter has to be noted in column 17 of the N.R. of citizens against such names and also the date of migration. Migration slips in Annexure IV have to be prepared one for each individual according to the place of migration (Please see the instructions at the foot of the printed form Annexure IV. In this connection it is submitted that many labour camps, which were then in existence are now no longer existing and the entire population has moved out. The places to which the people have migrated and whether each family has left for a particular place not known. Consequently migration slips cannot be written up for all these persons as the required information is not available. The writing up of the migration slips in respect of these persons who have moved out to UNKNOWN DESTINATIONS, serves no useful purpose. I presume that there is no need to write the migration slips relating to the labour camps which are no more in existence.

P.T.O.

4) Again, in obedience to the instructions under section II of the booklet, a census of Births and Deaths, has to be undertaken in respect of the houses selected. I doubt a list of such houses has been furnished by you for carrying out the experimental census. In this connection I have to submit that the labour camps in the T. T. B. area have been treated as separate blocks. For one block (in some cases the entire camp is treated as one block) 2 or 3 volumes of National Register of citizens have been written up, all registers being the same serial numbers for households. No house numbers have been assigned to these temporary huts. It has become impossible for me ~~to~~ to locate the exact building bearing the house-hold number selected for verification as the huts do not bear any number and as also all the volumes of the N.R. of Citizens, relating to that particular camp have the same serial numbers for households. I therefore request clear instructions as to how to proceed to fix up the correct house selected by you for sample house hold verification.

5) Further it is also ordered that Birth and Death slips have to be written up for the households selected by you. For labour camps, nobody is maintaining the birth and death registers and the births and deaths are not being registered at all. I request instructions whether births or deaths in the labour camps, can now be got entered in the Birth and Death registers of the villages in which the camps are located.

I solicit urgent instructions on points referred to above.

Sd. R. Harihar Rao,
S. I. Dy. Tahsildar, W. and R. T. B. Bellary,

Annual Revision 1952 - Tungabhadra project - Canal
area - Enumeration of persons in Camps.

P.I.C. f Ref: - From the Tahsdr, Bellary, dt 16.9.1952.

The following instructions ^{regarding} on the points
raised by the Spl. Dy. Tahsdr, W & R, T.B. project Bellary
are issued:

Para. 1 ^{of the latter} Inmates of ty. huts that came into existence in the
dam site area since the last enumeration, having been
treated as homeless persons, fall outside the scope of the
Combined Review of the N.R.C.s and the Electoral Rolls this year.
Therefore these ty. huts need not be numbered and the names of
persons residing therein ^{need} ~~should~~ not also be enumerated.

Para. 2 If the Camps are not in existence, the sample
households marked in the N.R.C.s concerned ^{should} ~~have to be~~ cancelled.

Para. 3 The presumption that ~~the~~ migration slips need not

Census Office

Electoral Rolls - M. & A. & Home of the people - Annual
Revision, 1958 - Tungabhadra project - Canal area -
Enumeration of persons in camps

PPS 1-2 C of Reg.:- From the Tahdr, Bellary Br. dt. 16-9-52

Please see the letter from the Tahdr, Bellary on PPS 1-2 C of and a copy of the letter from the Spl. Dy. Tahdr, W & R, T.B. project to the Tahdr, Bellary on PPS 11-12 C of. The points raised by him are examined below.

para 1 on P 11 C of: In consultation with the S.C.O. the Tahdr, Bellary instructed the Spl Dy. Tahdr to number the huts which have newly come up in the labour camps in the Canal area. The Spl Dy. Tahdr now reports that during the supplementary enumeration in 1950 it was ~~instructed~~ ^{ordered} that where no numbers have been assigned in a labour camp to the buildings or huts therein it is not necessary to insist on their being numbered and the persons residing in these huts should be treated as homeless persons in the electoral rolls. He solicits definite ^{instruction} ~~information~~ as to whether these huts should be numbered and the persons residing therein enumerated ^{more} ~~in~~ this operation. Homeless voters are not being enumerated, it seems ~~not~~ that it is not necessary to number these houses and the inmates enumerated. Census Office may see para 2 on P 11 C of Census Office may see for remarks.

para 3 on P 11 C of The Spl Dy. Tahdr reports that the many families have migrated to unknown places and therefore the migration slips cannot be written for all these persons. According to the instruction if the place where the persons have moved out is not known, the migration slip should be prepared but no action need be taken on these slips. ~~They~~ ^{But} ~~in this case the whole camps have moved out~~ ^{migration slips can be written up and only the places to which these persons have moved out} ~~should be entered in column 5 of the slip only if the information is available and in other cases merely be kept in the file office.~~ ^{It seems therefore that the place not known can be entered in that column. He also presumes} ~~that there is no need to write the migration slips relating to these labour camps which are no more in existence.~~ ^{may be approved} Census

Office may see for remarks.

Para 4 on P. 12 C. If it is ordered that the by huts need not be numbered and the persons residing therein not enumerated there is no question of conducting Census in the sample households in ~~Census~~ the labour camps. Census office may see.

8/10/52 ~~Para 5 on P. 12 C.~~ The Tahsil Bellary has already issued instructions in the matter. This is a point primarily concerning Health Dept. Census office and Health may see.

9.10.52

11/9/52

Census Office / Health

Para 1 + Para 4 (p. 11 + 12 C.)

U.O. 4789/52-2
9/10/52

Inmates of temporary huts that came into existence in the same line since the last enumeration, though he treated as homeless persons, fall outside the scope of the combined review & experimental census.

Para 2 (p. 11 C.)

If the camps are not in existence, the sample households marked in the N.R.C.'s concerned have to be cancelled. (p. 11 C.)

Para 3 There is no need to write up migration slips in cases of the kind mentioned.

~~Para 4 (p. 12 C.)~~

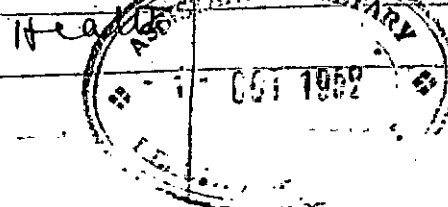

Para 5 (p. 12 C.) It is not clear if the District means that the births & deaths that take place in Labour Camps are not being registered at all, certainly the Registrar of Births & Deaths (the village headman) of the village where the Labour Camp is situated is responsible for registering the births & deaths that take place. If he has not done so, it is a ^{serious} neglect of duty.
